EDUCATION

Faculty of Mathematics and Informatics (UBB), Cluj-Napoca

I have been studying computer science at **Babeş-Bolyai University** since 2021. Here, I have learned many **programming languages and technologies** such as **Python, C, Shell, C++, Qt, C#, .NET Framework, Prolog, Lisp, SQL (SQL Server and PostgreSQL), Java, HTML, CSS and JS.**

„Lucian Blaga“ High-School, Cluj-Napoca

In hs I studied math and computer science (intensive cs). During that time, I participated in the **computer science olympiad** where I obtained an **honorable mention** in the county stage. I got a grade of **10** at the **baccalaureate exam** both in mathematics and computer science.

WORK EXPERIENCE

Junior C/C++ Software Developer at AvMap Romania

Last summer I started working as a **junior software developer** at **AvMap** in Cluj-Napoca, Romania. During this period, I worked with languages such as **C++, HTML, CSS and JavaScript.** I also worked with **Redmine, VirtualBox, Meld, WinSCP and Qt Creator.**

Reference: Marius Oprea - 0744554985

PERSONAL PROJECTS

Jumper

In my last year of high-school, I created a **2D Platform Runner** game for Android OS. The game was developed in **Unity Engine** using **Visual Studio** (for writing **C#** scripts).

Link: <https://github.com/Ampersand25/2DPlatformRunner>

Store Management System

In my first year at university, I developed a **GUI** application in **Visual Studio** using **C++** and **Qt Framework**, for my OOP course. The app manages the products of a virtual store.

Museum Generic Windows Forms Application

During my current semester at uni, I developed a desktop app in **VS** using **C#** and **.NET**. The app is a **Windows Forms Application** that manages a Museum DB (written in **SQL Server**).
